Self-adhesive solutions for door and window frames

SEAL, INSULATE AND PROTECT

Self-adhesive solutions for door and window frames

Doors and windows are an essential part of any building. Draught excluder contributes to a comfortable indoor environment because:
- it reduces energy consumption;
- it prevents heat loss and draughts inside;
- keeps dust and pollen out;
- it reduces noise from outside.

EPDM DRAUGHT EXCLUDER (SELF-ADHESIVE)

Self-adhesive extruded EPDM rubber draught excluders for doors and windows are:
- easy and quick to install;
- can be used indoors;
- very flexible;
- lifetime >8 years.

E-profile fits into gaps of 1.5 - 3.5mm.
P-profile fits into gaps of 2 - 5mm.
All-round profile fits into gaps of 2 - 7.5mm.

EPDM DRAUGHT EXCLUDERS

	Product description	Dimensions	Thickness	Color	Minimum order quantity
	**TLP9556BR/WH** EPDM draught excluder P-profile self-adhesive	9mm x 6mtr	5.5mm	● ○	12 rolls (1 carton)
	**TLP95524BR/WH** EPDM draught excluder P-profile self-adhesive	9mm x 24mtr	5.5mm	● ○	9 rolls (1 carton)
	**TLP100BR** EPDM draught excluder P-profile self-adhesive	9mm x 100mtr	5.5mm	●	8 rolls (1 carton)
	**TLP100WH** EPDM draught excluder P-profile self-adhesive	9mm x 100mtr	5.5mm	○	8 rolls (1 carton)
	**TLE9556BR/WH** EPDM draught excluder E-profile self-adhesive	9mm x 6mtr	4mm	● ○	12 rolls (1 carton)
	**TLE95524BR/WH** EPDM draught excluder E-profile self-adhesive	9mm x 24mtr	4mm	● ○	9 rolls (1 carton)
	**TLE100BR/WH** EPDM draught excluder E-profile self-adhesive	9mm x 100mtr	4mm	● ○	8 rolls (1 carton)
	**TLA1582BA** EPDM all-round draught excluder self-adhesive	15mm x 2mtr	8mm	●	12 rolls (1 carton)
	**TLA1055BA** EPDM all-round draught excluder self-adhesive	10mm x 5mtr	5mm	●	12 rolls (1 carton)
	**TLA105100BA** EPDM all-round draught excluder self-adhesive	10mm x 100mtr	5mm	●	8 rolls (1 carton)

THERMOPLAST DRAUGHT EXCLUDER (SELF-ADHESIVE)

Self-adhesive thermoplastic draught excluders with Omega profile are:
- suitable for doors and windows;
- resistant to all weather conditions;
- suitable for gaps of 1 - 6.5mm;
- flexible;
- waterproof;
- washable;
- applicable inside and outside;
- lifespan of >15 years.

THERMOPLAST DRAUGHT EXCLUDERS

	Product description	Dimensions	Thickness	Color	Minimum order quantity
	**TLTPOM6 BA/TR/WH** Thermoplast draught excluder self-adhesive Omega profile	9mm x 6mtr	7mm	● TR ○	12 rolls (1 carton)
	**TLTPOM24 BA/TR/WH** Thermoplast draught excluder self-adhesive Omega profile	9mm x 24mtr	7mm	● TR ○	8 rolls (1 carton)
	**TLTPOM100TR** Thermoplast draught excluder self-adhesive Omega profile	9mm x 100mtr	7mm	TR	8 rolls (1 carton)
	**TLTPOM100WH** Thermoplast draught excluder self-adhesive Omega profile	9mm x 100mtr	7mm	○	8 rolls (1 carton)

SILICONE DRAUGHT EXCLUDER

Non-adhesive silicone draught excluders for doors and windows protect against cold, draughts, heat, moisture, dust and pollen, thereby helping to save energy. The strips are flexible, waterproof and washable. They can be used outdoors and are UV-resistant. Silicone draught excluders have a lifespan of >15 years.

Omega profile draught excluder, suitable for gaps of 3 - 7 mm.
P-profile draught excluder, suitable for gaps of 3 – 7.5mm.

SILICONE DRAUGHT EXCLUDERS

	Product description	Dimensions	Thickness	Color	Minimum order quantity
	**KLW71000MEGA** Silicone Omega profile non-adhesive	7mm x 100mtr	7mm	○	6 rolls (1 carton)
	**KLW75100WH** Silicone Omega profile non-adhesive	7.5mm x 100mtr	7.5mm	○	6 rolls (1 carton)

PROTECTIVE FOILS

avoid extra costs for cleaning, repair and/or replacement due to damage

During manufacturing, transport and construction work, you want to avoid extra costs due to damage as much as possible. For doors and windows, we have protective tapes and films that combine excellent mechanical protection with residue-free removal. Here it is important that the right tape is applied and removed correctly. Please consult your tape specialist to find out which tape is best suited for your application and how to apply and remove the tape correctly.

Please note that protective foils must first be tested on the substrate itself. Be extra careful with porous paints and natural stone substrates.

PROTECTIVE FOILS

	Product description	Dimensions complete roll	Thickness	Color	Minimum order quantity
	**129222** PE protective film with self-adhesive rubber layer for indoor applications is excellent cleanly removable for up to 6 months after application. This film can be printed, e.g. with your own logo or brand name.	1250mm x 200mtr	0.08mm	◑	1 roll (cut to desired roll widths)
