

# Engineered solutions for Noise Reduction in Automotive Interiors

## About Stokvis Tapes

**Stokvis Tapes is a leading independent adhesive tape and foam specialist with production facilities spread across the globe. The international presence allows Stokvis Tapes to offer customers a perfect combination of local presence and international expertise provided through passionate, enthusiastic, customer oriented employees. With over 50 years of experience in the adhesive industry Stokvis has built a strong reputation for solving the most demanding bonding, mounting, insulation, masking, protection, sealing, shielding and packaging applications.**

## Our Values

### ESI support

From material selection to design of the part and with global production capabilities we help our customers to find the right material for the application, design the part for the most efficient hand, jig or fully automatic assembling.

### Quality assurance

Stokvis Tapes is dedicated to supply only high quality products that match customer's specifications and tolerances with a level of service that meets their most demanding requirements. At onsite laboratories products are carefully checked to ensure that they satisfy application requirements and specifications. To ensure quality at all levels of the organization Stokvis Tape Group have the latest ISO 9001 certificates in all countries. In addition, some Stokvis Tape Group companies are certified according to ISO 14001 and TS 16949 in those countries where significant involvement in automotive, medical and consumer electronics occurs.

### Testing facilities

A unique service that distinguishes Stokvis Tapes from its competition is the provision of independent, fast, high quality and accurate testing of adhesive tape properties and characteristics to determine how they will perform in relation to customer's own materials. Stokvis Tapes will test according to customer's own specifications or against those of international bodies such as AFERA, PSTC, DIN, BS, FAR etc.

### Cleanroom production

Especially important for Automotive Electronics, telecom and medical applications Stokvis Tapes has several clean-room facilities within the Group where requirements for dust free production are met.

### One stop shopping

The Stokvis Tape Group carries a wide product range of different tape and foam products which help to reduce customer's logistic costs. The Stokvis Tape Group would welcome the opportunity to reduce customer's costs by being a single source supplier for rolls, die-cut pieces and laminates.

## Our Offering

### MATERIALS:

- Thermally bonded PET fiber fleeces
- Blended PP & PET fiber fleeces
- Various fiber felts
- Open cell foams
- Semi-close cell foams
- Rebounded foams
- Butyl constrained tapes
- Foam tapes
- Shock absorption nitrile foams
- Visco-elastic double or single coated adhesive tapes
- Velour and flock tapes
- UHMW tapes
- Sandwich foam and fleece composites
- Transparent PUR tapes

### NOISE ABSORPTION

- Acoustic absorption pads in the doors
- Trunk absorption pads
- Rear window trim or extensions
- Trunk floor absorption pads
- Absorptive acoustic dash mat
- Headliner absorbers
- Air vent absorptive ultrasonic welded pads

### NOISE BLOCKING

- Engine cover
- Fender insulators
- Windscreen seal
- Pillar absorbers
- Radiator seal
- Sunroof seals

### STRUCTURE BORN AND HARSHNESS REDUCTION

- Seat belts buckle felt
- Door pocket & glove box textiles
- Floor board constrained anti-vibration pads
- Bumpers for light systems
